3D Systems to Host Analyst Event

Rock Hill, South Carolina – May 15, 2015 – [3D Systems](#) (NYSE:DDD) announced today that it plans to host an analyst event on Tuesday, May 19, 2015, from 1:00 p.m. until approximately 4:00 p.m. PT at its Wilsonville, Oregon location.

The event will feature presentations by 3DS' senior management, including:

- Avi Reichental, President and CEO
- Mark Wright, Executive Vice President, Chief Operating Officer
- Kevin McAlea, Executive Vice President and Chief Operating Officer, Healthcare
- Jeff Blank, Vice President, Engineering and Chief Development Officer
- Chuck Hull, Executive Vice President, Chief Technology Officer

Following the presentation, attendees will have an opportunity to meet and talk with the company's new CFO Dave Styka and to tour 3DS' Wilsonville facility.

For those unable to attend the event, the executive presentations and subsequent question and answer session will be webcast live on May 19, beginning at approximately 1:00 p.m. PT and concluding at approximately 3:00 p.m. PT. A link to the webcast and slide presentation will be available on the investor relations section of 3D Systems' website at www.3dsystems.com/investor.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially

different from historical results or from any future results or projections expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as “believes,” “belief,” “expects,” “estimates,” “intends,” “anticipates” or “plans” to be uncertain and forward-looking. Forward-looking statements may include comments as to the company’s beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company, including but not limited to, statements about management’s expectations regarding the company’s performance, initiatives and strategies. The factors described under the headings “Forward-Looking Statements,” “Cautionary Statements and Risk Factors,” and “Risk Factors” in the company’s periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. 3D Systems undertakes no obligation to update or revise any forward-looking statements, even if experience or future changes make it clear that projected results expressed or implied in such statements will not be realized, except as may be required by law.

About 3D Systems

3D Systems provides the most advanced and comprehensive 3D digital design and fabrication solutions available today, including 3D printers, print materials and cloud-sourced custom parts. Its powerful ecosystem transforms entire industries by empowering professionals and consumers everywhere to bring their ideas to life using its vast material selection, including plastics, metals, ceramics and edibles. 3DS’ leading personalized medicine capabilities save lives and include end-to-end simulation, training and planning, and printing of surgical instruments and devices for personalized surgery and patient specific medical and dental devices. Its democratized 3D digital design, fabrication and inspection products provide seamless interoperability and incorporate the latest immersive computing

technologies. 3DS' products and services disrupt traditional methods, deliver improved results and empower its customers to manufacture the future now.

Leadership Through Innovation and Technology

- 3DS invented 3D printing with its Stereolithography (SLA) printer and was the first to commercialize it in 1989.
- 3DS invented Selective Laser Sintering (SLS) printing and was the first to commercialize it in 1992.
- 3DS invented the ColorJet Printing (CJP) class of 3D printers and was the first to commercialize 3D powder-based systems in 1994.
- 3DS invented MultiJet Printing (MJP) printers and was the first to commercialize it in 1996.
- 3DS pioneered virtual surgical simulation (VSS™) and virtual surgical planning (VSP®), and its leading 3D healthcare products and services help doctors achieve better patient outcomes.

Today its comprehensive range of 3D printers is the industry's benchmark for production-grade manufacturing in aerospace, automotive, patient specific medical device and a variety of consumer, electronic and fashion industry applications.
