3D Systems Brings FreshFiber To Cubify

-3D Printed Accessories Make Electronic Gadgets Works Of Art

ROCK HILL, South Carolina –August 22, 2012 – 3D Systems Corporation (NYSE:DDD) announced today the immediate availability of FreshFiber's amazing 3D printed electronics accessories for order in the Cubify® store.

FreshFiber's accessories are 3D printed layer by layer for durability and cushion

FreshFiber™ is the leading 3D printed brand for stunning and functional smart phones and tablets. Each FreshFiber product is carefully designed to embody the complete freedom of creation and self-expression available only with 3D printing while integrating customization, cushioning and exceptional style. Choose your favorite pattern and color and the accessory will be 3D printed and shipped to your doorstep.

"We are thrilled to bring these gorgeous electronics accessories to Cubify for the benefit of our fast growing community," said Cathy Lewis, Vice President of Global Marketing for 3D Systems. "Our excitement increases with each amazing new offering we introduce to Cubify.com. We encourage other brands and the artist community to join us on Cubify and monetize their creations."

Register and order your FreshFiber smart phone or tablet case on Cubify today.

About 3D Systems Corporation

3D Systems is a leading provider of 3D content-to-print solutions including 3D printers, print materials and on-demand custom parts services for professionals and consumers alike. The company also provides CAD software and plugins, and affordable consumer create-and-make printers, apps and services. Its expertly integrated solutions replace and complement traditional methods and reduce the time and cost of designing new products by printing real parts directly from digital input. These solutions are used to rapidly design, create, communicate, prototype or produce real parts, empowering customers to create and make with confidence.
