3D Systems Teams Up With netfabb

- Delivers New Software Tools With Its Entire Product Line -

ROCK HILL, South Carolina, October 14, 2010 – 3D Systems (NASDAQ: TDSC) announced today that it has entered into an agreement with netfabb GmbH to resell netfabb's entire product portfolio of Studio and Cloud Solutions software with its 3D Production Systems, 3Dproparts™ and 3D Printers world-wide.

"The ability to deliver innovative and affordable content creation tools to our users underscores our commitment to democratize access to 3D Printers and our other additive manufacturing solutions," said Cathy Lewis, vice president global marketing, 3D Systems.

Under this agreement, 3D Systems plans to resell all versions of netfabb Studio, netfabb Engine and netfabb Cloud Solution; and both companies plan to participate in co-promotional activities and to collaborate for the purpose of market development and product enhancement.

Forward-Looking Statements

Certain statements made in this release that are not statements of historical or current facts are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements may involve known and unknown risks, uncertainties and other factors that may cause the actual results, performance or achievements of the company to be materially different from historical results or from any future results expressed or implied by such forward-looking statements. In addition to statements that explicitly describe such risks and

uncertainties, readers are urged to consider statements in the conditional or future tenses or that include terms such as "believes," "belief," "expects," "estimates," "intends," "anticipates" or "plans" to be uncertain and forward-looking. Forward-looking statements may include comments as to the company's beliefs and expectations as to future events and trends affecting its business and are necessarily subject to uncertainties, many of which are outside the control of the company. The factors described under the headings "Forward-Looking Statements," "Cautionary Statements and Risk Factors," and "Risk Factors" in the company's periodic filings with the Securities and Exchange Commission, as well as other factors, could cause actual results to differ materially from those reflected or predicted in forward-looking statements.

About 3D Systems Corporation

3D Systems is a leading provider of 3D Printing, Rapid Prototyping and Manufacturing systems and parts solutions. Its expertly integrated solutions reduce the time and cost of designing products and facilitate direct and indirect manufacturing by creating actual parts directly from digital input. These solutions are used for design communication and prototyping as well as for production of functional end-use parts: our customers create with confidence.

About netfabb GmbH

netfabb GmbH, founded in 2009, is a spin-off software company dedicated to offering innovative software solutions tailored for the 3D Printing and Additive Manufacturing industries. Manufacturing technologies have improved tremendously over the past years, while common software tools still remain monolithic and single part-based. In 2008, the netfabb team, trained by 15 years of experience in rapid prototyping and additive manufacturing, teamed up to develop new ideas and to create a software suite for the next generation of Additive Manufacturing.
